DRA. ANGELICA SHALA C. CODILLA
Head Dentist
CodiSmile Dental Clinic
NW Phase LRT Central Terminal, Arroceros St.
Brgy. 659-A, Ermita, Manila City

Dear Dra. Codilla:

Greetings of peace!

We, the undersigned students of the College of Computing Studies, Universidad de Manila, are currently conducting our capstone project entitled **"Toothwise: A YOLO-Based Multi-Condition Dental Screening System with KNN-Based Recommendation for CodiSmile Dental Clinic."** The system analyzes still intraoral photographs to detect tartar, plaque, cavity, gum inflammation, and healthy tooth using the YOLOv8 and YOLOv12 object detection models, computes a risk classification, and generates a personalized prevention plan, while all findings remain subject to the review and final judgment of the clinic's licensed dentist.

In line with this, we respectfully request your approval to conduct our study at CodiSmile Dental Clinic, specifically to:

1. use CodiSmile Dental Clinic as the deployment site and clinical reference of the Toothwise system;
2. demonstrate and pilot the system with the clinic's dentist, dental assistants, and receptionist, using sample dental images only; and
3. consult the clinic's dentist on the system's detection results, risk classification, and prevention plans so that they reflect sound clinical practice.

The study does not involve the clinic's patients. The ISO/IEC 25010 software quality evaluation has already been answered by 50 respondents from outside the clinic, so no patient photograph, record, or personal information from CodiSmile Dental Clinic will be collected. Any information shared with us will be kept strictly confidential and used solely for academic purposes, in accordance with the Data Privacy Act of 2012 (Republic Act No. 10173), and all activities will be scheduled so as not to disrupt the clinic's daily operations.

Your approval will be a great help to the completion of our study. Thank you very much for your time and kind consideration.

Respectfully yours,

Brayan Axel L. Tubillas
